

The Cochrane
Renal Group

Updated Review Checklist

Abstract

Does the abstract accurately reflect the equivalent sections in the review?

Background

Is the background still relevant or is there new information that should be incorporated?

Results

Have the new studies been appropriately incorporated into the review?

Discussion

Does the discussion reflect the new results?

Reviewers' conclusion

Have the conclusions changed, and if yes do they reflect the new findings?

General comments (e.g. style, readability)
